The file module enables a teacher to provide a file as a course resource. Where possible, the file will be displayed within the course interface; otherwise students will be prompted to download it. The file may include supporting files, for example an HTML page may have embedded images or Flash objects.

Note that students need to have the appropriate software on their computers in order to open the file.

A file may be used

- To share presentations given in class
- To include a mini website as a course resource
- To provide draft files of certain (eg) to students

can edit and submit them for

Add Cancel

The screenshot shows the Moodle File picker interface. On the left, there is a sidebar with a list of dates from June to August and a list of IDs (e.g., 204-390-8). The main area is titled 'File picker' and contains a list of file sources: Recent files, Upload a file, URL downloader, Private files, Wikimedia, and Server files. The 'Upload a file' option is highlighted. To the right, there are input fields for 'Attachment', 'Save as', 'Author' (filled with 'Jeena Umal'), and 'Choose license' (filled with 'Other'). A 'Browse...' button is next to the 'Attachment' field, and an 'Upload this file' button is below the license field. A large red callout box in the center contains the text: 'Remark : You need to set file name in english only , no space , no special symbol.'

9. Click Upload a file

10. Click Browse

11. Click Upload this file

Remark : You need to set file name in english only , no space , no special symbol.

The screenshot shows the Moodle 'Options' and 'Common module settings' panels. The 'Options' panel includes settings for 'Display' (set to 'Automatic'), 'Show size', 'Show type', 'Display resource name', and 'Display resource description' (checked). The 'Common module settings' panel includes a 'Visible' dropdown (set to 'Show') and an 'ID number' input field. At the bottom, there are three buttons: 'Save and return to course', 'Save and display', and 'Cancel'. A callout box points to the 'Save and return to course' button with the text: '12. Click Save and return to course'. A red error message at the bottom right reads: 'There are required fields in thi'.

12. Click Save and return to course

There are required fields in thi
